

FJORD 490 OPEN / SPORT

TURN THE KEY. CREATE KEY MOMENTS.

 **FJORD 490 OPEN**

SCULPTURED UNIQUENESS

The new big T-Top
for effective sun and
weather protection

To experience truly memorable moments, you need a yacht engineered around a clear identity. The FJORD 490 OPEN/SPORT represents the next evolution of the Fjord design language – bold, architectural and unmistakable. Every line, every surface and every proportion is created from scratch, not scaled from a smaller model. This is a yacht built by leaders and innovators, not followers.

The hull is newly developed for superior seakeeping and stability, paired with high bulwarks and a completely level deck for confident movement in any condition. Advanced construction methods, premium materials and precise German craftsmanship ensure durability and refinement throughout.

NORDIC DESIGN

ITALIAN STYLE

GERMAN
CRAFTSMANSHIP

IGNITE EVERY CELL

Push the throttles and the FJORD 490 responds instantly. The SPORT version, powered by three Mercury V12 600 hp outboards, delivers exceptional acceleration, maneuverability and range. The OPEN version with Volvo Penta IPS 700 or 800 combines efficiency, smooth running and precise joystick docking.

Handling is intuitive and confidence-inspiring thanks to the yacht's balanced hull and advanced hydrodynamics. Triple or twin 19" SIMRAD displays in a dedicated helm pod deliver clear navigation, with an ergonomic layout that keeps all controls naturally within reach.

 **FJORD 490** SPORT

MAKE EVERY MOMENT LEGENDARY

The FJORD 490 OPEN/SPORT is designed to bring people together. Two large sunpad areas, a pair of fold-down balconies, a full row of forward-facing co-pilot seats and a generous cockpit lounge work together to create a natural social flow on board.

The aft section becomes the central gathering space. With the balconies lowered, the stern sunpad opens fully to the sea. Its forward part lifts into a bench facing the dining tables, while aft-facing seats offer front-row views of the wake or water-sports action.

Two extendable dining tables host up to ten guests and can be lowered to free deck space. The one-level teak deck ensures effortless movement from bow to stern, with handrails placed for stability and safety. A large T-Top shades the entire cockpit, integrating LED lighting and optional features while preserving the clean Fjord silhouette.

Sun lounge at the bow:
relax together in comfort,
sunbathing freely or resting
beneath the optional shade
awning.

The over 5 sqm cockpit sunpad
offers space for everyone to
stretch out and enjoy a true
private beach experience.

Side balconies open
the deck to the sea:
relax in comfort with your
feet just above the water.

WALKAROUND IN ELEGANCE

Move freely across the deck without steps, obstacles or interruptions. The walkaround layout is engineered for practical use, whether entertaining, relaxing or swimming. The hydraulic bathing platform supports up to 400 kg, allowing safe entry into the water, launching heavier water toys or boarding from dockside with ease.

Integrated portside fold-out steps provide additional boarding flexibility, while oversized cleats and integrated self-tailing winches simplify every mooring procedure. Stern-facing seats create an additional leisure zone close to the water, complementing the sunpad and dining areas.

 **FJORD 490** SPORT

HEARTBEAT MEETS HORSEPOWER

With three Mercury V12 600 hp outboards, the FJORD 490 SPORT exceeds 40 knots while maintaining impressive stability and control. Increased fuel capacity extends your cruising range, inviting longer passages and remote anchorages.

For inboard lovers, the OPEN version with Volvo Penta IPS offers remarkable efficiency, responsive steering and smooth operation.

UNBEATEN STORAGE

The FJORD 490 SPORT offers remarkable storage beneath the aft sunpads, designed for owners who enjoy water activities. The space accommodates seabobs, electric SUPs, diving equipment, inflatables and a wide range of gear – all protected, organised and immediately accessible. It transforms the yacht into a true platform for sport, leisure and adventure.

SIT DOWN, SPEED UP

Four custom sport seats at the helm provide secure support at any speed. Each seat features sliding adjustment, integrated armrests and back support for comfortable long-distance cruising. Co-pilots enjoy panoramic visibility and access to their own instrumentation, creating a shared high-performance driving experience.

A MAGIC MATCH OF STYLE AND SUNLIGHT

Descending below deck reveals a calm, refined interior lit by expansive hull windows and skylights. Premium materials, soft surfaces and well-defined lighting create a warm, inviting atmosphere.

The owner's cabin spans the full beam, offering a generous bed, ample storage and an en-suite bathroom with a standing shower. Additional storage is integrated throughout the lobby. Flexible layouts let you tailor the space: choose two double cabins or, exclusively for the FJORD 490 SPORT version, a forward U-shaped lounge paired with a spacious midship master. Each option prioritizes comfort, practicality and long-term livability.

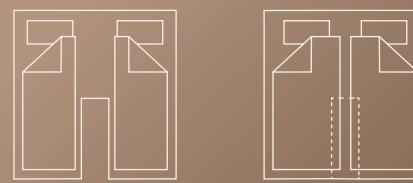

LEAVE YOUR SIGNATURE

Personalization begins with the layout and extends through fabrics, materials and colours.

The midship cabin offers a full-length bed with substantial storage, while the optional bow lounge creates a bright social space for relaxing, dining or movie nights. Owners can rearrange the midship bed using a sliding divider for added flexibility.

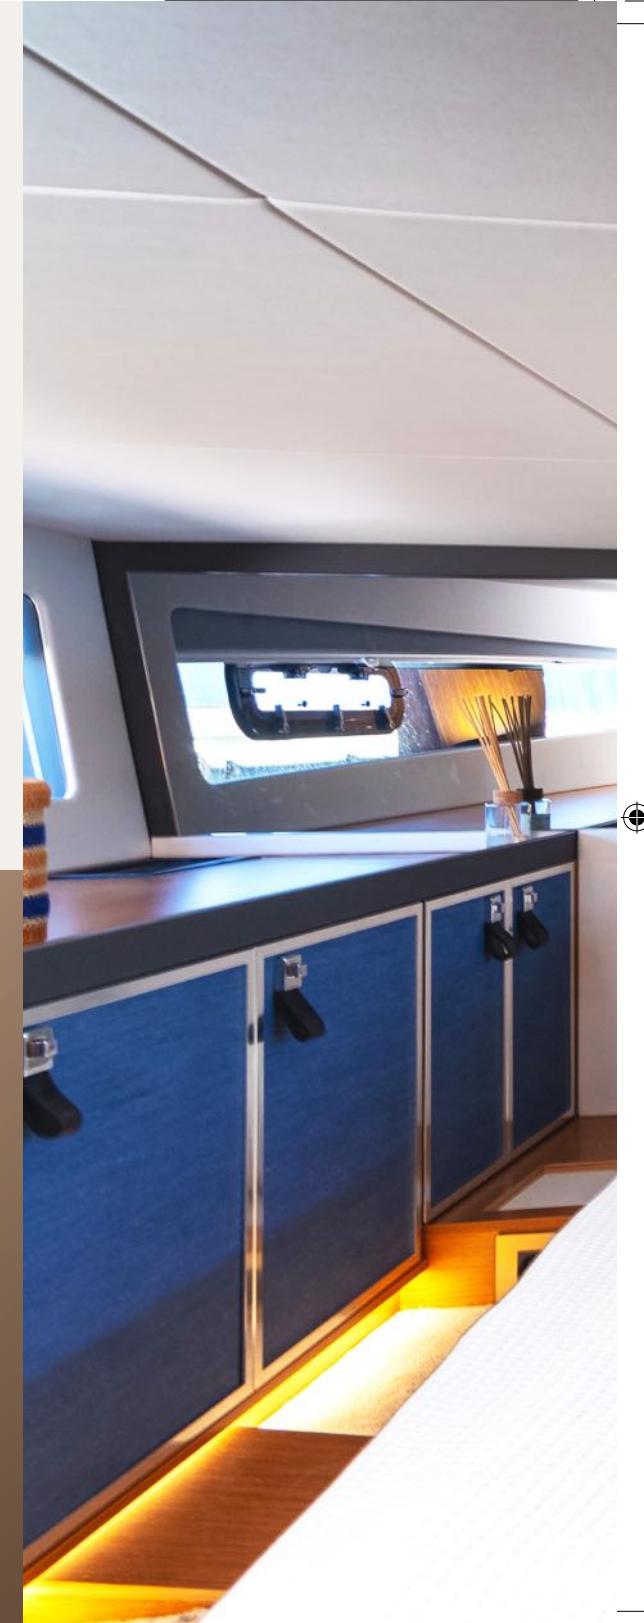

Guest accommodation is completed by a dedicated bathroom with separate shower.

Choose from a wide selection of surface finishes, upholstery and cabinetry to create a yacht that perfectly reflects your style. Every detail is engineered to combine beauty with durability.

Rearrange the bed

Adjust the sliding divider to split the berth whenever you or your guests prefer more personal sleeping space midships.
